ATUL THORAT

PRODUCT UI/UX DESIGNER

Creative UI/UX Designer with 1+ years designing end-to-end product interfaces for SaaS and mobile platforms. Currently at Youhonk, building operational tools for delivery partner workflows. I combine UX fundamentals with an AI-augmented design process to ship thoughtful, pixel-precise experiences faster. My engineering background bridges design and development. I speak both languages fluently.

WORK EXPERIENCE

UI/UX Designer

Youhonk · SaaS – Vehicle Service Logistics

Dec 2024 – Present

Full-time · Pune, India

- Designed end-to-end mobile & web UI for logistics SaaS - covering delivery partner task flows, status screens, and navigation from concept to handoff.
- Built a scalable Figma component library and design system, ensuring visual consistency across 20+ screens and reducing dev rework.
- Translated business requirements into wireframes, user journeys, and high-fidelity responsive prototypes aligned with brand and UX heuristics.
- Collaborated in an agile cross-functional team, iterating designs based on real-world field usability insights.
- Leveraged AI tools (Google AI Studio, Gemini, Claude, Lovable AI) to accelerate design exploration and rapid prototyping cycles.

UI/UX Designer — Intern

Seven Mentors Pvt. Ltd.

May 2024 – Oct 2024

Internship · Pune, India

- Designed responsive website layouts and landing pages optimized for visual hierarchy and user engagement.
- Created wireframes and high-fidelity Figma prototypes, iterating on feedback from senior designers in structured critique workflows.
- Designed UI banners, hero sections, and digital marketing assets for web and social platforms.

SELECTED PROJECTS

Delivery Partner App

MOBILE UX FIGMA LOGISTICS

End-to-end mobile interface for vehicle pickup/drop operations. Designed task flows, one-handed navigation patterns, and high-fidelity screens optimized for field usability.

Portfolio Website

WEB DESIGN LOVABLE AI CASE STUDIES

Designed and developed a full portfolio site featuring UX case studies. Used AI-assisted no-code tools for rapid design and development - a live proof of AI-augmented workflow.
